Top Downloaded Article

Congratulations to:

Eugene Rozanov

Whose paper was one of the most downloaded* during its first 12 months of publication in:

**JOURNAL OF GEOPHYSICAL RESEARCH: SPACE
PHYSICS**

**HEPPA III Intercomparison Experiment on Electron Precipitation
Impacts: 1. Estimated Ionization Rates During a Geomagnetic
Active Period in April 2010**

**Heppa III Intercomparison Experiment on Electron Precipitation
Impacts: 2. Model-Measurement Intercomparison of Nitric Oxide
(NO) During a Geomagnetic Storm in April 2010**

**Among work published in an issue between 1 January 2021 – 31 December 2021.*
